

## MOBILE CRANE “PERSONAL” SIMULATION

“TURN YOUR PC  
INTO A PROFESSIONAL TRAINING SIMULATOR!”

### IT'S EASY!

OPTIMAL  
JOYSTICK  
CONTROLS

YOUR  
PC

**1. CONNECT**  
OFF-THE-SHELF  
SIMULATOR CONTROLS

**3. DEVELOP**  
YOUR SKILLS

BASIC JOYSTICK  
CONTROLS

**2. INSTALL**  
SIMULATION SOFTWARE

Just as the tasks of the **CCO Practical Exam** increase in difficulty, so do the “**Personal Mobile Crane Simulator**” exercises.

Emphasis is placed on the generic skills of moving a load around obstacles while respecting upper and lower height boundaries *AND* load chart limits!

Moving clouds add an extra challenge, as does the zigzag corridor used during the concrete pouring simulation.

New **cost-effective** training for **Mobile Crane** operators helps you:

- **Pre-screen** new trainees more carefully.
- **Introduce** new operators to **machine controls**.
- **Create a “virtual seat”** for your oilers as part of their on-the-job training.
- Help your operators **prepare for CCO certification**.

When you consider that even small accidents due to inexperience can cost thousands of dollars in replacement parts and downtime, this is a good value indeed!

### The price?

- The software license is just \$3,500 (USD)
- This is a one time fee!
- See web site for joystick control options.
