

HAUL TRUCK SIMULATORS

“TURN YOUR PC INTO A PROFESSIONAL TRAINING SIMULATOR!”

TWO DIFFERENT JOBS - TWO DIFFERENT TRAINING TOOLS

IT'S EASY!

YOUR PC

BASIC CONTROLS

**1. CONNECT
OFF-THE-SHELF
SIMULATOR CONTROLS**

**2. INSTALL
SIMULATION SOFTWARE**

85-100 Ton Capacity Truck

200+ Ton Capacity Truck

**3. DEVELOP
YOUR SKILLS**

These “**Personal Simulators**” put you at the controls in one of two modern haul trucks.

Choose a 200+ ton mining truck as it interacts with a simulated shovel
or an 85-100 ton off-highway truck as it works with a simulated wheel loader.

Training that is completely safe, always available, costs little, and emphasizes best practices from the start.

For each Simulation Module, key performance indicators are measured such as positioning, execution time, haul truck driving speeds and brake temperatures. Other performance indicators are associated with the operation of the braking system including retarder and the hoist control lever.

These simulation results are automatically saved for later review.

Simulations

The **simulation software** puts you at the controls of a modern heavy hauler. Each simulator has 6 Simulation Modules of increasing difficulty to bring people up to speed in a carefully planned and measured way. The first one, Controls Familiarization introduces the operator controls. The final one, Complete Haul Cycle combines loading, driving and dumping. There is even a simulated wheel loader or shovel built right in to help teach truck spotting and loading interaction!

Finally a **safe** and truly **cost-effective** way to help you:

- Select new trainees more **carefully!**
- Bring new operators up to speed **faster, more economically, and more safely!**
- Qualify new hires more **reliably!**

When you consider that even small accidents due to inexperience can cost thousands of dollars in replacement parts and downtime, this is a good value indeed!

The price?

- Please contact VISTA Training for pricing.
- See web site for joystick control options (purchased separately.)
