

WHEEL LOADER “PERSONAL” SIMULATION

“TURN YOUR PC
INTO A PROFESSIONAL TRAINING SIMULATOR!”

IT'S EASY!

STEERING WHEEL CONTROLS

1. CONNECT
OFF-THE-SHELF
SIMULATOR CONTROLS

BASIC JOYSTICKS

STICK STEERING CONTROLS

YOUR
PC

3. DEVELOP
YOUR SKILLS

2. INSTALL
SIMULATION SOFTWARE

This “**Personal Simulator**” puts you at the controls of a modern wheel loader featuring virtual digging and interaction with a simulated off-highway truck. Begin by choosing either steering wheel or stick steering, and then start your simulator-based work!

The simulation software **measures** how well you do in over numerous ways: execution time, bucket fill, loader positioning, productivity, etc.

These simulation **results are automatically saved** for later review.

Simulations

8 simulation modules of increasing difficulty are provided, from the basics of control familiarization to stockpiling and truck loading that features our unique “dynamic terrain modeling” technology.

Finally a **safe** and truly **cost-effective** way to help you:

- Select new trainees more **carefully!**
- Bring new operators up to speed **faster, more cheaply, and more safely!**
- Qualify new hires more **reliably!**

When you consider that even small accidents due to inexperience can cost thousands of dollars in replacement parts and downtime, this is a good value indeed!

The price?

- The software license is just \$6,000 (USD)
- This is a one time fee!
- See web site for joystick control options (purchased separately)
